

1. Hill Outrun & Lift
2. Dogleg Fetch through Panels and across small gully before turning left and moving back across gully to proceed to Handler's Post

3. Drive Away to Bridge and turn left
4. Cross Drive over Bridge and through Panels
5. Right turn to Shed Ring (Handler moves to Shed Ring once sheep break plane of the panels).

6. Put all 5 sheep into trailer. Dog holds sheep in trailer while handler moves to side door. Handler lets 3 sheep out of trailer, leaving 2 sheep inside. **CLOSE BACK OF TRAILER!**

1. Dog moves 3 sheep into mouth of Chute while handler moves to first opening. Handler works with dog to turn 1 sheep left out of the main opening, allowing the remaining 2 sheep to proceed straight toward the secondary opening.
2. Handler removes sheep from trailer, gathers remaining 3 sheep and moves all 5 sheep toward Exhaust.
