HRD III Technical Course Description (*Part 2*)
For 1-2, see *Part 1* of Course Desciption.

3. Drive Away

4. Cross Drive

5. Bridge: Full points awared for all 10 sheep and dog crossing the bridge while the handler remains at the post
(1 point deducted/missed sheep; 5 points deducted if dog fails to cross bridge)

6-7. Sort & Pen: Full points awarded for sorting 5 marked and 5 unmarked sheep and penning one group
(10 points awarded if an attempt to sort 5 marked from 5 unmarked sheep is made but a mixed group of 5 is ultimately penned)

8. Maltese Cross w/ unpenned sheep: Handler may choose entry point but *must* move all 5 sheep through the width and length of the cross to complete obstacle. The sheep are then brought back to Handler's Post.

9. Look Back: Dog leaves the unpenned sheep at the Handler's Post and fetches a second group of 5 sheep towards the Handler's Post

10. Exhaust: *This part is unscored*. Handlers will drive all 10 sheep towards the exhaust for the stock dog to fetch.
